

**Glucosinolate Conference 2017**  
Berlin, Germany // September 17-20.2017

## Welcome

The 4<sup>th</sup> International Glucosinolate Conference will cover a range of topics of glucosinolate research from 'omics to food systems.

### Topics

- Molecular and Genetic Aspects of Glucosinolates
- Glucosinolates in Agro- and Food Systems
- Glucosinolates and Human Health
- Glucosinolates and Ecology

Each theme will be introduced by invited keynote speakers and followed by presentations selected from the participants. We explicitly aim to foster integration between the themes by having thematically mixed poster sessions. Each poster presenter will have the opportunity to highlight his or her poster in an oral 'flash' presentation. Integration between the participants is further stimulated during the excursion and conference dinner on Tuesday.

We warmly invite you to join us for this conference.

Please sign up for the mailing list for receiving more detailed information on this conference via e-mail: [info@glucosinolates2017.org](mailto:info@glucosinolates2017.org)

## Important Dates

- Abstract submission opens  
**03 March 2017**
- **Abstract submission Poster only**  
**10 August 2017**
- Notification of acceptance of abstract  
**30 June 2017**
- Earlybird registration closed
